# THE FRESHEST DRINKS YOUR EMPLOYEES WILL TASTE, EVERY TIME

## Our Freshpack technology:

Freshest ingredients are sealed inside our patented Freshpack and flushed with nitrogen to prevent oxidation. This unique process locks in the taste and aroma until the moment it is served.

Only water passes through the machine, so there's no cross contamination; no coffee taste to spoil your peppermint tea; and cleaning takes a fraction of the time required with other machines.

## Product variety, from known and owned brands:

An unsurpassed range of products from owned brands and proprietary favourites, catering for all palates. Mars Drinks offer the optimum solution for your workplace.

# INDUSTRY LEADING RELIABILITY
