

FONT30 & FONT30CL

Wall-Mounted Bottle Filler & Wall-Mounted Contactless Bottle Filler With Contactless Bubbler For Indoor Or Covered Outdoor Installation

FONT30 Comes with a solid manual push button bottle filler and joystick bubbler, made of high grade Stainless Steel

FONT30CL Comes with a infra-red contactless glassfiller & bubbler designed to avoid hand to tap bacterial contamination

Key Features:

- **FONT30** Comes with a solid Manual Push Button Bottle Filler and JoyStick Bubbler, made of a high grade Stainless Steel
- **FONT30CL** Comes with a infra-red contactless glassfiller & separate bubbler which is designed to avoid hand to tap bacterial contamination
- Easy to install, cost effective & tough, this bottle filler with bubbler is perfect for inside, & covered outdoor installation in schools, institutions & public access spaces
- Connects straight into the mains supply, providing unchilled water. It can also be connected to an undersink Chiller to dispense chilled water
- The FONT10CL Infra Red Sensor is activated by a hand hovering over the Infra Red Sensor at a distance of 2cm to 5cm
- The Sensor is connected to an Inlet Solenoid valve which opens the water supply when activated, and stops the water flowing when the hand is removed
- The Contactless FONT30CL is programmed to stop dispensing after 6 seconds. If that is insufficient you can place your hand again over the sensor to continue dispensing

Additional Options:

- ☒ NanoFilter High Pharma Water Filter to increase flow rate & remove 99% of bacteria & viruses

Description	Dimensions H X W X D (MM)	Weight (Kg)
FONT30	750x 330 x 370	12.5
FONT30CL	750x 330 x 370	12.5
